Subject: Park Homes

Dear Eddie

I would like to thank you again for attending the Park Homes APPG on 7th February but it is disappointing that I have not heard from you since.

It is also a great disappointment to members of the APPG for Park Homes that the Government was unwilling to support the Private Members' Bill to implement agreed Government policy for reform in this sector. Even the modest change from RPI to CPI in the calculation of increase in pitch fees seems to be beyond the capabilities of the Government. With a new Parliamentary session in prospect, I would be grateful for your confirmation that your Department will draft a 'hand out' bill for a private Member successful in the ballot so that the long over-due legislative changes supported by the Government can be implemented in the forthcoming session.

With best wishes

Chris
